

Great Mission Statements For Nonprofits

Unrepresented and marginalized communities are often the most vulnerable to the effects of climate change. Therefore, non-profits are increasingly turning to the media to raise awareness and mobilize the public to take action. Selecting the right media is a critical step in this process. This guide provides a comprehensive overview of the various media options available to non-profits, including print, digital, and social media. It also includes a checklist of factors to consider when selecting a media option, such as budget, reach, and audience. This guide is intended to help non-profits make informed decisions about their media strategy.
